

TOWN OF MINTO

POLICY

Sidewalks

The Town of Minto supports the County of Wellington's program entitled "Walkable Communities". This program is to promote healthier citizens in our municipality and encourage more residents walking as daily fitness. The Town of Minto implement a Sidewalk Policy for all future development in the municipality.

1. Any developer that extends a roadway or constructs a roadway for vehicular traffic must extend or construct a sidewalk on one side of the roadway. This sidewalk will be at the developer's expense and constructed to the standards of the Town of Minto.
2. If a developer does not extend or construct a sidewalk to the satisfaction and standards of the Town of Minto; the Town of Minto will proceed to construct a sidewalk and the developer will be responsible for paying the cost of the sidewalk.

Adopted by Council on November 16th, 2005.
